

Technology isn't just for show. Your success and survival in today's global economy depends on it.

Smart solutions

Challenge your lift trucks to do more.

Urbanization and e-commerce are driving warehouse growth to new levels. You need technology seamlessly integrated into your lift truck solutions to advance your performance and competitive position. Yale offers a comprehensive lift truck technology suite that encompasses a range of interconnected systems designed to address the labor, safety, and productivity concerns of today and tomorrow.

Each layer of technology builds on the previous one, creating a cohesive system that supports continuous improvement and operational excellence to help your current warehouse operations. From innovative safety and power solutions to proven robotics, Yale has the forklift technology to answer your biggest challenges.

Product portfolio

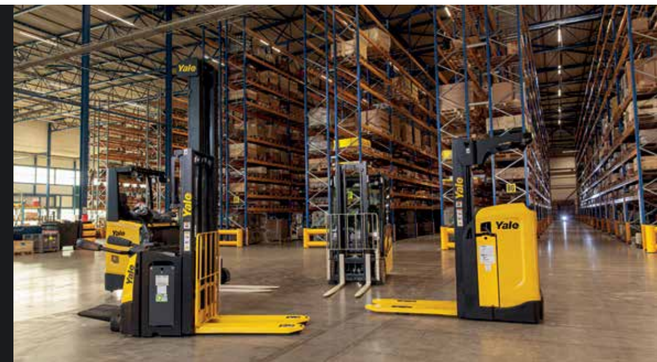

A comprehensive line-up of
warehouse and industrial lift trucks

Safety: Yale® products sold in the USA and Canada meet the design and construction requirements of B56.1-1969, as referenced in OSHA Section 1910.178(a)(2). Yale products also comply with the applicable ANSI/ITSDF B56.1, B56.5, or B56.9 standard (depending on truck classification) in effect at the time of manufacture. Certification of compliance with applicable B56 standard is indicated on product. Classified by and listed with Underwriters' Laboratories, Inc.

Notice: Care must be exercised when operating material handling equipment. Operators must be trained and must read, understand and follow the instructions contained in the operating manual. Products may be shown with optional equipment and/or features not available in all regions. Product performance may be affected by its condition, how it is equipped and the application. Specifications are subject to change without notice. Consult your Yale® Dealer if any of the information shown is critical to your application.
