- (1) Add 34mm for ISS Carriage up to and including 2500kg capacity. Add 36mm for ISS Carriage (6) Add 28mm with load backrest for greater than 2500kg capacity (7) Standard performance, extends
- (2) Measurement from ground to bottom of forks
- (3) Add 666mm with Load Backrest up to and including 2500kg. Add 583 with Load Backrest for greater than 2500kg capacity
- (4) h $_6$ subject to +/- 5 mm tolerance. Add 20mm with cab option. Add 104mm for battery side removal option. Add 124mm for battery side removal with cab option
- (5) Full Suspension (FLM80) specified, compressed condition. Add 40mm for nominal position. Add 104mm for battery side removal option
- (7) Standard performance, extended shift function turned on
- (8) Maximum flow set through dash display
- (9) LPAZ, measured according to the test cycles and based on the weighting values contained in EN12053.
- (10) 2LFL masts only

Specification sheet based on: Standard seat, Standard Overhead Guard, Standard 1067mm wide carriage, Extended shift on with standard battery configuration, 2LFL mast.

All values are nominal values and they are subject to tolerances.

About Yale®

Yale Materials Handling Corporation is one of the oldest manufacturers of lift trucks in the world. We've been in the business of lifting since 1875 and we apply that experience to help customers solve materials handling challenges. Our full line of lift trucks range in capacity from 1 to 16 tonne and are powered by internal combustion engines or electric options. Yale also offers robotic solutions, telemetry, fleet management, parts, financing and training. From traditional lift truck equipment to emerging technologies, our goal, every day, is to work with our nationwide dealer network to continually improve and provide the solutions you need, when and how you need them.
