

Yale® ERP080-110MXLG and ERP110-155MXLG
Lithium-ion Electric Forklifts

Simply flexible,
reliable,
affordable.

Productivity and performance – Operator comfort and ergonomic design keep efficiency high from shift start to finish

Smart versatility – Smooth control excels in the warehouse and outdoor environments

Optimize uptime – Fast opportunity charging for lithium-ion batteries keeps pace across multiple shifts.

Zero emissions – Integrated lithium-ion battery technology in an affordable package

Minimize costs – Lower energy consumption and simplified service save time and money

Expect reliable components, customer-centric design, and back-up from experienced dealers – everything you've come to expect from Yale® Lift Truck Technologies.

AN ELECTRIFIED SOLUTION

The Yale MXLG 080-155 lbs capacity forklifts deliver smart and efficient ICE-like performance for a range of general operations, inside and outside.

Operators are empowered by ergonomics and comfort that help boost efficiency and confidence, even with frequent stops and starts.

- Large super-elastic tires and high ground clearance handle uneven surfaces smoothly.
- Additional comfort features available, including weatherproof cabs.
- A quiet electric drive train for a pleasant operator experience and working environment.

Across the MXLG forklift family, Yale integrated lithium-ion battery technology provides lower energy consumption and zero tailpipe emissions. Eco-conscious operations don't need to compromise on controllability or operating efficiency.

Yale lithium-ion battery benefits:

- One point of contact for forklift, battery and charger
- Zero maintenance
- No harmful gases during use or charging
- Battery options from 46.5 kWh to 80.7 kWh
- 5-year warranty (assuring at least 70% rated capacity; terms and conditions apply)
