

MRW 020-030E

Walkie reach stacker

2,000-3,000 lbs.

Engineered for performance,
built for productivity.

With exceptional maneuverability and ergonomics, the MRW-E walkie pallet reach stacker helps position loads just where you want them. It works best in manufacturing and warehousing applications where space is at a premium and load widths vary.

WHY THE MRW020-030E WORKS:

1. COMFORT

Control handle has angled handgrips providing better operating position, alleviating fatigue throughout the shift

2. PERFORMANCE

Three performance modes allow you to tailor truck performance to the application

3. VISIBILITY

Simplex and Hi-Vis triplex masts offer excellent visibility, with solid construction for smooth operation

Smarter design. Stronger results.

ERGONOMICALLY DESIGNED CONTROL HANDLE

- Angled handgrips, wrap-around reversing switch, and fingertip hydraulic controls reduce operator fatigue and enhance comfort
- Fingertip hydraulic controls allow for seamless operation of lift/lower, tilt, and reach/retract functions
- Bottom-mounted tiller handle design optimizes the operating position and reduces the steering effort

DURABLE MAST & REACH MECHANISM

- 24" reach extension with cushioned cylinders for smooth operation
- Tilt capability of 4° back / 3° forward helps with secure transport and accurate placement

ROBUST HYDRAULIC SYSTEM

- Fully proportional lift/lower controls for precise load handling
- Quiet operation with fewer connections and solid-state pump control

HIGHER PRODUCTIVITY, REDUCED MAINTENANCE

- Thermal plastic compartment cover is easily removed without tools for easy service access and maintenance
- SEM traction control technology enhances performance to help operators move more efficiently—especially in tight spaces and high-frequency tasks
- Auto Deceleration System reduces brake wear and returns energy to the battery

BUILT FOR VERSATILITY

- Ideal for retail, manufacturing, and beverage distribution
- Available side shifter, widths, and mast height options for various environments +
- Freezer package enables reliable operation in environments as cold as -40°F +
