

Route Runner™ solution vs traditional sled delivery

Revolutionizing final mile delivery for overloaded drivers

The Yale Route Runner™ is a nested solution that transforms last-mile delivery. The walkie pallet truck and motorized sled, along with the matched pallets, put the right equipment in the hands of the delivery driver at the right time for the right task from the liftgate through tight indoor environments for quick offloading.

~63 minutes saved per route, improving time efficiency

~27,000 pounds less lifted per route, reducing physical strain

~1,980 fewer steps taken per route, reducing fatigue
