NTA 030-035SB

Very narrow aisle turret truck

3,000-3,500 lbs.
Maximize storage density and efficiency.

Volume surges and an increasing number of SKUs are pushing demand for more storage space in the warehouse, but building expansion is too slow and expensive. The fastest, most cost-effective way to maximize storage density is with higher racking and narrow aisles. To make that transition, you need a truck that can handle such rigorous conditions.

The Yale® NTA030-035SB very narrow aisle (VNA) turret truck helps warehouses increase storage capacity by up to 50% compared to conventional storage systems by working in aisles as narrow as 56 inches and racking up to 622 inches. The NTA-SB series of VNA trucks are ideal for case picking and staging loads for horizontal transport to loading docks. They can be fitted with freezer construction for use in cooler/freezer environments.
Inefficiency is a lost opportunity to make a profit, so it’s essential to stay productive with high-performance lift trucks. The NTA030-035SB has many features that keep your operator moving cases and pallets all day, every day.

Keep loads moving all shift long.

**SMART GLIDE™**
Height and load sensing optimizes travel speeds and acceleration.

**PROGRAMMABLE PERFORMANCE**
Adjustable parameters to operator preference for acceleration, travel speed, lift/lower speeds and regenerative braking.

**WIRE GUIDANCE SYSTEM**
Sensors-based system automatically controls truck steering in the aisles without contact. Rail guidance is standard.

**RFID TECHNOLOGY**
Wireless system to control truck speeds and mast heights, identify aisles and limit truck functions.

**SMART STEERING SYSTEM**
Self-centering technology that automatically returns the truck’s steering to the straight position prior to start up.

**MULT-FUNCTION CONTROL HANDLE**
Convenient one-handed simultaneous control of travel and hydraulic functions. Included as a standard equipment.

**180° FORK ROTATION**
Easy pallet moving from both sides of the aisle without turning the truck around. Optional turret rotator head and optional tilt feature automatically position the forks.

**END OF AISLE CONTROL**
Automatically slows and/or stops the truck when entering an intersection or exiting an aisle.

An uncomfortable lift truck operator may become fatigued faster and have less confidence in their control, leading to lower productivity and an unhappy employee. Help prevent that from happening with the Yale NTA-SB very narrow aisle turret lift trucks, which have many ergonomic features to get the most out of your operators.

Take comfort to a new level.

- **LARGE LCD DASH DISPLAY**
  Easy to read display to continuously monitor battery status, hour meter, travel speed, mast height and diagnostics.

- **SWING-UP GATES**
  Clears a wide space for easy enter/exit.

- **LOW STEP HEIGHT**
  Faster entry/exit and less operator fatigue over a shift.

- **HIGH BACK REST AND RECESSED SWIVEL SEAT**
  Provides full back support while seated or can be flipped up for stand-up operation.

- **PEDEL-FREE FLOOR**
  Flush mounted pedals prevent a trip hazard.

- **LITING AND ALARMS**
  Multiple lights and alarm options to help alert and provide awareness to operators and pedestrians.

- **CUSHIONED FLOOR MAT**
  Thick, slip resistant floor for better comfort and stable footing.

- **3-WAY ADJUSTABLE ARMRESTS WITH INTEGRATED JOYSTICK**
  Offers a wide range of operators the ability to find a comfortable position whether seated or standing.
Reliable operation for maximum uptime.

A lift truck that’s down for unplanned maintenance can derail your entire operation. The NTA030-035SB is built with robust and proven technology that has made Yale a trusted brand for decades.

**TRIFORM/QUADFORM MAST**
Patented, industry leading design provides excellent strength and stability, as well as good visibility for the operator.

**AC TECHNOLOGY W/CANbus ELECTRICAL SYSTEM**
Proven brushless AC traction motor provides high reliability and longer maintenance intervals. The CANbus communication system significantly reduces wire complexity.

**THERMAL MANAGEMENT SYSTEM**
Continually monitors temperature and adjusts truck performance to reduce the chance of component damage.
Downtime for repairs and maintenance adds costs and reduces profit potential. Avoid frequent, lengthy service calls with the Yale® vary narrow aisle turret truck, which have many service-friendly features.

**CONVENIENT BATTERY ACCESS LID**
Top access for fast in-truck battery maintenance.

**EASY IN- AISLE SERVICE ACCESS**
Spring-assisted hood provides 180 degree access to motors, controllers and all major components for in-aisle service.

**ON-BOARD DIAGNOSTICS**
Quick troubleshooting and repair time.

**EXTENDED SERVICE INTERVALS**
1,000 hour service intervals on the entire truck.

**TILT-DOWN HYDRAULIC CONTROL VALVE**
Unrestricted access to the pump motor and a color-coded filter status indicator help simplify hydraulic repairs.

**ALTERNATIVE POWER SOURCES**
Choose from lithium ion, hydrogen fuel cell or thin plate pure lead batteries.

**AUTO DECELERATION SYSTEM**
Extend brake life with automatic electric park brake engagement when AC traction motor reaches zero.

**YALE VISION**
Provides insights and controls to help improve operator behavior, control access to equipment, confirm pre-shift checklist completion, and monitor equipment and operator utilization.

NTA-030SB and NTA-035SB trucks are the new standard in truck serviceability. Not only are these trucks designed to require less maintenance, they’re also designed to be extremely easy to service.
